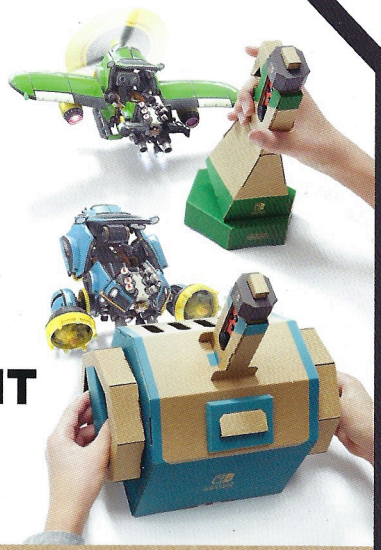
NINTENDO LABO™

Toy-Con 03 VEHICLE KIT



Vehicles represent gameplay.

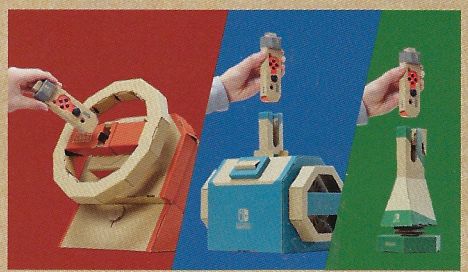
GET READY TO MAKE, PLAY AND DISCOVER WITH THE NINTENDO LABO: VEHICLE KIT, which puts you in the driver's seat of a car, submarine, and plane! Nintendo Labo is an innovative line of family-friendly DIY kits for the Nintendo Switch gaming system.

MAKE

Make customizable cardboard creations called Toy-Con, play fun games with them, discover how they work, and invent new ways to play. All required building materials and accessories are included, and each kit's unique packed-in Nintendo Switch software provides interactive build instructions, games, and more—all you need to add is a Nintendo Switch console and its pair of Joy-Con™ controllers!

PLAY

See your creations come to life as you speed through races, battle special cars equipped with extendable punching arms, explore and interact with a mysterious world, and more. Each vehicle has different controls and special moves, and swapping between them is easy: just pull the Toy-Con Key you're using out of one and slot it into another.



DISCOVER

Discover how your creations work by peeking inside them or watching handy tutorials. When you're ready to try making something uniquely yours, the intuitive and interactive Toy-Con Garage programming tool included in your kit's software empowers you to explore new ways to play with your kit's creations and invent your very own. You can even use the new Custom Controls feature to make your own Toy-Con controllers and control schemes for the included games!
